

Blue Cap—Who We Are

Since 1967, Blue Cap has provided individualized supports to people of all ages with intellectual and developmental disabilities. Our supports and services extend far beyond our physical location of Blue Island, Illinois. At Blue Cap, we support people who reside in a major part of the south side of Chicago and over 30 suburban communities. We are a non-profit organization dedicated to meeting the educational, therapeutic, vocational and residential needs of children and adults with intellectual and developmental disabilities. Over the years, Blue Cap has continued to grow and develop.

Blue Cap's original class photo taken one year after opening in 1968.
